## OVERVIEW

Designed for law enforcement agencies, military personnel and covert deployment, the Surgeon Concealable Sniper Rifle (CSR) yields Surgical Precision and discreet concealment. The Surgeon 591 Short Action features an integrated recoil lug, a side-mounted, shrouded bolt release to aid in avoidance of accidental bolt release, and anti-jam rail to prevent a jam when single-loading. The raceway features an anti-bind rail to ensure smooth bolt operation allowing for quick and consistent firing. Paired with the foldable Cadex Lite Comp Chassis, and 16" barrel, the CSR is tactical mission ready out-of-the-box.
